

P.U.(A) 328/86
FACTORIES AND MACHINERY (BUILDING OPERATIONS AND WORKS OF ENGINEERING
CONSTRUCTION) (SAFETY) REGULATIONS 1986
PART X - SCAFFOLDS

Regulation 85. Inspection of scaffolds.

(1) Subject to the provision of these Regulations, no scaffold shall be used unless-

(a) it has been inspected by a designated person within the precedings seven days; and

(b) it has been inspected by a designated person since its exposure to weather conditions is likely to have affected its strength or stability or to have displaced any part; and

(c) the results of such inspection are entered by the designated person into a register which is to be kept at the worksite for inspection by an Inspector.

(2) The provisions of paragraph (a) of sub-regulation (1) of this regulation shall not apply to a scaffold where no part of which has been erected of more than seven days, and a trestle scaffold or a scaffold from no part of which a person is liable to fall more than 3 metres.
