

P.U.(A) 328/86
FACTORIES AND MACHINERY (BUILDING OPERATIONS AND WORKS OF ENGINEERING
CONSTRUCTION) (SAFETY) REGULATIONS 1986
PART IX - LADDERS AND STEP-LADDERS

Regulation 67. Swaying and sagging.

Every ladder shall be-

- (a) secured so as to prevent undue swaying;
- (b) equally and properly supported on each upright; and
- (c) so used as not to cause undue sagging.
